## It's a Shared Responsibility

The University of Florida is a public land-grant institution with its main campus located on 2,000 acres within an urban population of 95,400. Included on the UF campus are residential facilities for over 10,000 students, and over 180 buildings used for a myriad of purposes. Today, the university is among the top 5 largest universities in the nation, with an enrollment of more than 50,000 students.

The University of Florida recognizes the importance for an institution of higher learning to develop and maintain a safe and secure environment in which the academic and social pursuits of its members can be fully realized.

The university has the utmost concern for the success of each student and strives to give each student maximum freedom to live his/her life free from outside interference. With this freedom, however, comes the responsibility of becoming an active participant in the exercise of personal safety.

No community's security plan can attain maximum effectiveness unless everyone contributes to making it work. Safety and security are both personal as well as shared responsibilities. Only by accepting this responsibility can members of the university community maintain a safe and secure academic environment.

This brochure is provided to you as part of the University of Florida's commitment to safety and security on campus and satisfies all of the requirements of the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, formerly the Federal Crime Awareness and Campus Security Act of 1990. It is filled with information about a variety of security services and programs available to you as members of the university community. We hope that you will become familiar with this information and find the programs useful. If you would like more information pertaining to safety programs offered, visit the University of Florida Police Department web site at [www.police.ufl.edu](http://www.police.ufl.edu).
